

MENTORING PROGRAM FOR NEW FACULTY MEMBERS

The executive vice president and provost and the deans of each college provide funds to support a mentoring program for newly appointed faculty. Faculty members may each receive **up to \$1,500** designated for a project that engages at least one mentor, over time, to advance their academic career.

The project should represent a career development opportunity that may not otherwise be possible without this funding. The intent is for the mentoring project to be one aspect of a comprehensive mentoring program that is sustained across the pre-tenure years.

The mentoring project is designed by the new faculty member during the first year in residence and reviewed and approved by the department head prior to submission to the Office of the Provost.

Who can participate?

Newly appointed clinical assistant professors, assistant professors of practice, collegiate assistant professors, University Libraries assistant professors (continued appointment-track), and tenure-track assistant professors.

Information Sessions

Information sessions are offered in the fall and spring semesters. All sessions will be held at The Inn at Virginia Tech.

Access to workshops from a location other than Blacksburg can be arranged. Please indicate your needs when registering.

Session registration is available at:
